FINANCIAL AFFAIRS remain unchanged. Money is as plenty as the air, apparently, but unfortunately it will not abroad as the winds and help to fructify the earth. Money is seeking investment and business men are seeking money-yet they cannot come together. Business men arrogate to themselves the special attribute of good sense, accurate facts, and correct figures. Their claim is the merest boast. Money wants borrowers and borrowers want moneyagriculturists want manufactured articles, and artizans who manufacture want the agriculturists flour and meal--yet our practical business men cannot manage so that the shoemaker shall exchange his goods for the flour, for want of which his family is hungering, against the farmer whose family is barefoot for want of the shoes the shoemaker is in distress because he cannot sell. The practical man of facts and figures is the greatest of all existing failures. Money in abundance on the one hand, pov-erly, wanting the idle money to it at work, on the otherand the "practical man," the most self-satisfied and conceited of all human beings, stands by as helpless and as useless as his wife's lapdog in a fight, una-ble to solve the problem society presents before him. Exchange remained as reported the last day or two-New York lying at par, selling at | premium; Boston and other eastern cities taken at par for demand exchange; New Orleans I discount. Some banks, however, will give an eighth premium for New York in round lots, and regularly take New Orleans at 1. These rates awaken the opposition of rivals, and it is probable a change will soon be made in the figures by some banks selling New York exchange over the counter at par. Gold was taken by some brokers at 110; others paid 111. Arkausas State scrip has got much out of favor, and we lower quotations. Small lots of county scrip are bought at 88. Ten shares of Bluff City insurance company stock sold at 304. Mississippi levee coupons, January 1, 1874, were offering at 75. Two hundred comptroller's State warrants changed hands at 98. Shares of the Phoenix in-

surance company are in the market for Nicolson Pavement scrip... Shelby county scrip... Sharleston railroad stocks... Fennessee new issue.... THE COTTON MARKET was inactive,

THE COTTON MARKET was inactive, owing principally to heavy rain, which made it difficult to do business, and partly to higher askings on the part of holders, which buyers were not disposed to accede to. The telegraph reported New York as closing quiet and steady at 16½c, against 16½c the previous day. New Orleans was active and firm in the morning; at the close less active at 15½c, against 15½c the day before, with sales of 3500 bales, and receipts of 5460 bales. Liverpool was dull at the former rate, 12.00 bales; Great Britain, 41,447 bales. ness interests. The streets and levee were in a wretched condition. During the afternoon it cleared off, the sun came out bright and warm and a strong breeze from the southwest continued until dark. The river rose three inches by the government gauge, and now stands thirty-three feet three inches above low water-mark. All the upper streams are rising rapidly and unless heavy declines set in at an early day we fear the lower country will completely overflow, or at least that portion not provided with good and substantial levees. Business was perfectly flat.

Indigestion's Martyrs.

Half the diseases of the human family spring from a disordered stomach, and may be prevented by invigorating and toning that abused and neglected organ with Hostetter's Stomach Bitters. Let It be borne in mind that the liver, the kidneys, the intestines, the muscles, the ligaments, the bones, the nerves, the integuments, are all renewed and nourished by the blood, and that the digestive organs are the grand alembic in which the materials of the vital fluid are prepared. When the stomach falls to provide healthful nourishment for its dependencies they necessarily suffer, and the ultimate result, if the evil is not arrested, will be chronic and probably fatal disease somewhere. It may be developed in the kidneys in the form of diabetis, in the liver as congestion, in the macles as rheumatism, in the nerves as paralysis, in the integuments as scrofula. Remember, however, that each and all of these consequences of indigestion may be prevented by the timely and regular use of that sovereign antidote to dyspopola, Hostetter's Bitters.
